

Worldwide Price List

Transducers

Sizes	Pressure	Temperature	Circuit ¹	Output ²	List
1", 0.88", or 0.75"	5K [350 bar]	300°F [150°C]	SMT	F, D	\$5,875
	10K [700 bar]	300°F [150°C]	SMT	F, D	\$5,875
	16K [1100 bar]	300°F [150°C]	SMT	F, D	\$7,315
1", 0.88", 0.75, or 0.50"	10K [700 bar]	300°F [150°C]	HYB	F, D	\$7,315
	16K [1100 bar]	300°F [150°C]	HYB	F, D	\$8,760
	16K [1100 bar]	350°F [177°C]	HYB	F, D	\$9,220
	20K [1375 bar]	350°F [177°C]	HYB	F, D	\$10,665
	20K [1375 bar]	400°F [200°C]	HYB	F, D	\$12,175
	25K [1725 bar]	350°F [177°C]	HYB	F, D	\$12,175
	25K [1725 bar]	400°F [200°C]	HYB	F, D	\$13,765
1.25" Diaphragm "DMD"	5K [350 bar]	185°F [85°C]	SMT	D	\$5,100
	10K [700 bar]	185°F [85°C]	SMT	D	\$5,100
	16K [1100 bar]	185°F [85°C]	SMT	D	\$6,555
1.63" Laboratory	5, 10, 20, or 30K [350 - 2050 bar]	185°F [85°C]	SMT	D	\$4,125

1 Circuit Types: SMT = Surface-mount; HYB = Hybrid
 2 Circuit Output: F = Frequency-output; D = Digital-output

Price is calculated based on the following formula:

$$\text{Price} = \text{List} \times (1 - [\text{Quantity Discount} + \text{Reward Discount}])$$

PO Quantity	Discount
1 - 9	None
10 - 14	3%
> 15	7%
High Runner*	12%

* High runner is a fixed price regardless of quantity ordered. High Runner qualifier is based on 120+ pieces purchased in the prior year.

Reward Discount*	Varies from 0% to 4%
------------------	----------------------

* Reward Discount is based on the best of the prior two years' purchases.

Transducer Accessories

	List
QB – 1" Bellows Isolator Module-enclosed	\$729
QBX/QBM – Bellows Isolator Module-exposed	\$625
Inconel 625 Metal Sealing Cones	\$32
PEEK Backup Rings	\$27
QR (7.20 MHz Reference Crystal)	\$375
QT (7.15 MHz Temperature Sensor Crystal)	\$375
QCom (Transducer Interface-USB, Single Channel)	\$390
Transducer Cable (Transducer to QCom), 2 meter length	\$187
Special Calibration Charge (Orders < 5 units), Price per calibration	\$2,035

Transducer Repair and Recalibration

	List
SMT Transducer Repair (new QT, QR, SMT, bellows, & calibration)	\$2,605
HYB Transducer Repair (new QT, QR, bellows, & calibration)	\$2,605
HYB Transducer Repair (new QT, QR, HYB, bellows, & calibration)	\$3,905
Downhole Transducer Recalibration (25 to 150°C, 175°C, or 200°C)	\$1,250*
Surface/Subsea Transducer Recalibration (-40 to 85°C)	\$680

* Includes new bellows

Quantity discounts on transducers are given on a purchase order basis by item. For example, if you order five (5) SPB112-16-177 and fifteen (15) DMB002-10-150 transducers on a single purchase order, the price of the 16K/177°C transducers will be at the 1 - 9 quantity price, and the 10K/150°C transducers will be calculated at the 15 piece price. Purchase orders must specify delivery within five months of PO date.

This price listing supersedes previous price lists. Prices, product specifications, and product offerings are subject to change without notice. All sales are subject to Quartzdyne's standard Terms and Conditions, available on our website. No sales will be made subject to the customer's Terms and Conditions. Credit Terms: Net 30 (with approved credit), FOB Salt Lake City, Utah, U.S.A.
